## AGREEMENT BETWEEN PARTIES

Andrew Lee Jamison and Edward Darrell Becton

creditor [REDACTED] beneficiary

King/Creditor 13-24729 K

The Property at stake in the proceeding is The Bond. Therefore Edward Becton Living beneficiary and Andrew Jamison Living beneficiary demands to secure TITLE AS A right to the BONDS behind this fictitious criminal prosecution to be Immune from a Bogus Conviction. How to get the Title there must be an agreement between the Parties concerning the identity of the creditor on the bond furthermore the Parties shouldn't have to pay a filing fee for the bonds. Established King/Creditor Edward Darrell Becton is using his Exemption to secure TITLE TO BOTH BONDS FOR THE AGREED Parties. Also parties suggest that the court waive public Administration fee for registering the BONDS And secure the fee by performing and offset through use of Private Treasury Ucc Contract Trust Account (EIN #) F0691577 And [REDACTED] F76088183 IF THE Court does not do either it is in dishonor to the King/Creditor

## Contract Agreement

I, Andrew Lee Jamison and Edward Darrell Becton both AGREE THAT Edward Darrell Becton is the KING/CREDITOR concerning THE identity of the creditor

Conclusion for Court Bond / Penal Bond

13-24729

Filing the bond removes us from controversy. The history of the use of this bond thus far appears to be that all incarcerated users were released. Not all of them, however, remained free it seems that the ones who stayed out permanently were those who had filed documents (such as a UCC Financing Statement, Employer Identification - with Jurat, if possible - and other documents that clarify that the real being and the strawman are two different things and that the real being is the "living principal" who autographs instruments and operates in capacity of being the authorized representative, attorney in fact, and Secured party for the strawman. Those who did not put in any paperwork that States and declares this were reincarcerated after a few weeks, since they never rebutted the rebuttable presumption which is where the power is that the real being is united and amalgamated with the strawman (presumed to be the property of the system), so that whatever the system wants to do with its property (the strawman) gets enforced on the real being. Filing this Bond removes us from the controversy. We cannot be required to pay any claim for losses or costs because we have covered any and all of them by providing a bond backed by our exemption, which is unlimited. We have covered every outcome by our good-faith effort. A Court exists to resolve disputes, which requires adverse parties. The bond removes us from the arena by ending the controversy and discharging any obligation there might be via the bond, whether or not there is any assessment in fact. It is our understanding that the reason a Court has seven-two (72) hours to deal with the Court Bond from the time it is filed is the requirement to adjust the books on the International Stock/bond exchange within that time frame. This has happen in actual cases And people who filed the Court Bond have been brought into court the following morning, if not sooner
